(checks payable to Brown University Club of SWFL)

## **Biography**

Larry Larson is the Sorensen Family Dean of Engineering at Brown. He began his term as dean in July 2011.

During his tenure at Brown, he has overseen a significant expansion of the faculty and supported over \$140 million in fundraising for the School, the design and construction of a new 80,000 square foot research building, substantial growth of the graduate program, creation of the Brown Design Workshop, and the expansion of entrepreneurship activities on campus.

Before his appointment, he was chair of the Electrical and Computer Engineering Department at the Jacobs School of Engineering of the University of California–San Diego and was the inaugural holder of the Communications Industry Chair.

Dean Larson received his B.S. from Cornell and his Ph.D. from UCLA. He has published more than 300 papers in peer-reviewed journals and international conferences and edited or co-authored three books. He holds 41 patents. Dean Larson is an IEEE Fellow and co-winner of the 1996 Hughes Electronics Lawrence Hyland Patent Award and the IBM Microelectronics Excellence Award.
